Dear Mr. Shepherd:

Enclosed please find a copy of our letter of notification to the operator for the Middle Desert Wash Project, S/055/004, Wayne County, Utah and a map of proposed operations submitted by Casey Jones for this area.

Bureau of Land Management regulations are similar to Section R613-001-106 Mineral Rules concerning noncontiguous mining and exploration disturbances, conducted by one operator, which take place in the same general area. This claimant has eight operations within a two mile radius for which he has filed notices of intent (see enclosed map). Total disturbance from all of these proposed operations would be less than three and one half acres.

We will look forward to your visit should you decide to inspect these prospects.

Sincerely,

William Bookin

Acting Area Manager
